Communicating a winning message...showcasing dazzling technology solutions... demonstrating unique product features...conveying the excellence of a high performance team! Let Stewart Presentations create quality multimedia to bring visual excitement to your company's next corporate presentation.

Today's trend is to combine an outstanding oral presentation with effective and supportive multimedia to increase the retention span of your audience. SP Inc.'s experienced professionals involve you in the creative process, from pre-production to final editing. We tend to the important aspects of your production every step of the way: researching your project; storyboarding; imaginative writing; casting for on-camera or voice-over talent; inserting dynamic video or still imagery; and, adding original or royalty-free music. Stewart Presentations will maintain the high production standards you demand while providing the best value for your budget, large or small.

We deliver in any format: HD, DVD, DV, CD, HDD, video streaming, webcast, or videoconferencing. We also provide environmental staging, scenic/lighting design, talent, and electronic/virtual display to better showcase your live presentation or technology demo.

Stewart Presentations has vast experience in broadcast media, live theatre, multimedia graphics, animation and video production to ensure that your project gets the attention it deserves and delivers the intended message that hits your audience's hot buttons and requirements. It's all about impact!
